My initial experience was not very rewarding I played Plant vs Undead medyo late na ako nakapasok and nakapaginvest ako ng 5k dito pero next week nag dump na yung token dahil sa update nila.

It felt bad kasi yun lang pera ko that time kala ko scam lang yung crypto, pero I saw possibilities kasi kung hindi bumagsak is malaki sana kikitain ko, which nakuha ko naman sa axie.

It is the initial goal kasi ng mga pumapasok well sino ba naman ayaw ng pera, I think developers should make the game fun para people will stick to the game kahit hindi na as profitable

It feels confusing minsan pag bago there's a lot of things na kelangan mo gawin that is very unfamiliar
